Public Video: no longer than 4:30 and no shorter than 3:30
- *video concept*: jackie is a lifestyle/organization youtuber who is a fan of the newly launched bullet journal web application (our team's bullet journal) and is interviewing the software developer team that created it.
- please speak **excitedly** like you're a guest on a youtube channel lol
- What I need:
  - A fun introduction of the new software developer team & stating the roles of each member: **Tiana**
    - Time MAX: 20 seconds
  - Demo of our bullet journal (make this part "sizzle" to show off any features or things you are proud of): **Hana**
    - Time MAX: 1 minute
  - What challenges were faced? How did you overcome these challenges?: **Aaron & Keith**
    - Time MAX: 45 seconds
  - What would you do differently during your development process if you could do it all over again (anything you feel you would do differently now that you are done)? **Sasha & Nhan**
    - Time MAX: 45 seconds
  - Do you have any advice to future developers who want to code the next unique bullet journal (brief point of advice for the next students of 110 projects)? **Dustin & Christian**
    - Time MAX: 30 seconds

Private Video Assignments: shorter than 15 minutes and longer than 6 minutes (more formal than public video)
- Team Intro: **Jackie**
- Project Contributions: **EVERYONE FILMS VIDEO EACH**
  - **time MAX: ~30 - 40 seconds**
  - introduce yourself
  - state your role & what you did for the project
  - state what you worked on that you are most proud of
  - what you think you could have improved upon if you were to work on another group project with this team
    - "What they feel they could improve upon or address beyond the class"
- How to Access Repo & Repo Organization: **Hana**
  - **time MAX: 30 - 40 seconds**
  - a tour of the repo organization (going through each folder & stating what's in it & the purpose of the files within it)
- "Making a Change" to the Repo Demonstration & CI/CD Pipeline: **Dustin & Sasha**
  - "Making a Change" (video 1): **Dustin**
    - **time MAX: 1 min 30 seconds**

- ■ Please speak and give a demonstration of making a small change to the repo (make an issue and then a small edit to the code and demonstrate how we would create new feature branches and merge them to dev branch & then testing branch & then to main)
- ■ While demonstrating making a small change to the repo & showing the branching process, also show what actions are run on this small change with our pipeline

  - ○ Pipeline overview/what it includes + Future Improvements to pipeline (video 2): ==Sasha==
    - ■ **time MAX: 1 min**
    - ■ Please talk about what our pipeline does and what actions are performed upon pushing & merging certain changes
    - ■ Talk about linting, jsdocs, codefactor, and testing
    - ■ Talk about any future improvements that could be made to our pipeline

- ● Retrospective: ==**Jackie & Tiana**==
  - ○ **time MAX: 2 minutes each**
  - ○ (video 1) Challenges and Victories that the team faced: **Jackie**
  - ○ (video 2) What Agile practices were conducted (what practices went well & didn't): **Tiana**
    - ■ Probably mention daily standups here

- ● Future Take Ons: ==**Aaron, Keith, Christian, Nhan**==
  - ○ **time MAX: 1 min each**
  - ○ In general, discuss what more we would have or wanted to have done if we had another quarter to work on our bullet journal

  - ○ (video 1) Discuss features that could be improved on (any small bugs with current features, how we can make some of our features look better, how to improve our customizability, etc.): ==**Nhan & Christian**==
  - ○ (video 2) Discussion of what things a team taking on our project should do next & Discuss features that have not been built yet that we want to implement: ==**Keith & Aaron**==
